Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising notices free any more than a merchant can give away his goods. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We Have!

Always contended for and maintain it is a fact that there is a higher order of intelligence evinced in the business of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$1.25 will buy a \$12 suit of clothes. Our many years experience goes to show that people want good goods, and for which they are willing to pay a fair price. Our 1898 spring business proves that the higher the class of goods the readier they sell. Our beautiful Black and Blue Serge Suits (we sell them at \$12) have bounded into wonderful great favor with our good dressers. We have a beautiful line of them. The weather is getting right for our

Crash Suits

Our Crash Suits are right for the weather. Prices ranging in this line

From \$2.50 to \$7

They are worth your inspection. On Saturday we will open our Children's and Boys' Crash Suits.

OUR SHOE DEPARTMENT is now complete in Summer Footwear. We handle only the best quality of goods in this line. Our Fine Patent Leather Shoes which a few days since were closed out are replenished with a shipment of the very latest and correct styles.

Maysville certainly had her share of the "plunk" yesterday. At 10:10 a. m. the Ohioan train on the C. and O. left quite a number of people here, at 11:30 a train on the L. and N. from Paris dumped a large crowd of colored people into the city to attend the campmeeting at Dietrich's Park, and about 5 o'clock the steamer New South came in from Cincinnati with about 750 people. Had the day been a few hours longer no telling what would have happened along next.

MAYSVILLE'S OPPORTUNITY.
Large Chair Manufacturing Plant Desires to Move to This City.

Mr. John Duley is in receipt of a letter from a large chair manufacturing plant in Cincinnati asking for a suitable building in this city in which it can establish its business.

This, it seems, is an opportunity that our citizens cannot afford to let slip away from them to another city, as it takes factories to make a city, something that Maysville is sorely in need of.

Any one having a building suitable for such business—own with a boiler and engine preferred—will please call on Mr. Duley at the State National Bank.

DROWNED AT RIPLEY.
Mate on Price's Showboat Walked off the Courier This Morning.

A man by the name of Dunham, Mate on Price's Showboat, was a passenger on the steamer Courier this morning as far as Ripley.

He walked into the engine-room of the steamer when several miles below that point and sat down in a chair and went to sleep.

The Engineer woke him up after the boat had whistled for Ripley at 2 o'clock this morning, and he arose and walked to the door that opens on the right side.

He was told that Ripley was on the other side, and when the engineer turned his attention to the engines the man disappeared.

Diligent search was made for him by the officers of the boat, but he could not be found, and when the boat landed at Ripley those who got off were noticed closely and Dunham was not among them.

The Engineer of the Courier is positive that he walked overboard into the river and was drowned.

They sell without advertising, and yet it's hard to shake off the habit of spending advertising money for things that have no need of it. Our counters tell the Shirt Waist story better than pen, type or printer's ink can do. Not a waist in the lot but would be cheap at one-fourth more than we ask. They are all this season's styles in make and material and finished with care always given samples. No. 1 assortment.

COTTON DRESS SKIRTS.

It's satisfying to choose from such a carefully selected stock as this. A FEW years ago—the youngest of our grown people can remember it—Europe knew nothing and cared less about us. Today, as with the stroke of an enchanter's wand, we have become the tallest of the old Nations. Our merchants, our manufacturers are teaching the world. Our ship-builders are leading in that most wonderful of all the scientific arts, pushing to the rear even the master builders of the Clyde. And all the Nations of the world are discussing eagerly and anxiously our political policies.—New York World.

A glowing tribute to Protection from a Free-trade source, says The American Economist. But there was no enchantment used in bringing to pass these splendid results and achievements. Just plain, everyday common sense in adhering to the distinctively American policy of building up home industries and what did it. Under the contrary policy we should still be engaged in selling raw materials to foreign countries and buying them back in the shape of manufactured commodities. That is the truth of the matter.

SCREETITION has been at statistics again, says The Commercial Tribune. He finds that history repeats itself—sometimes. It did with LEITER in more ways than one. It also brought him and his collapsed corner into comparison with HARPER and his deal that wrecked the Fidelity Bank. These finger marks of fate are interesting to some people. The Tribune keeps a record of coincidences, and here is his latest list.

EDWARD L. HARPER—thirteen letters. JOSEPH V. LEITER—thirteen letters. Harper wheat corner collapsed June 13th, 1887. Leiter wheat corner collapsed June 13th, 1898.

If LEITER could only have held out two years longer, the thirteen combination would have been complete in years, which would have added to its value in the estimation of the club. There is no doubt that JOSEPH was willing, but the market was weak. JOSEPH's old man lost his nerve. It was the part of wisdom. He preferred it to losing his money. Otherwise it might have been possible to add also: Loss \$13,000,000. But, as comparative calamities the Harper and Leiter deals carry the thirteen far enough for "queer coincident" purposes.

It must be said to LEITER's credit—by reason of that fact, is still good—that, except in his misfortune, and thirteens, his name and his failure have nothing in common with that of HARPER. He has wrecked no bank and has left no big shortage to be settled by the people he has betrayed. Thanks to able handling of his holdings by the old adversary, ARNOX, he will pay out. If he doesn't, Pa. will. The Leiter autograph is still good at the bank—though probably not for thirteen figures.

THE BUYERS GUIDE.
The Largest Shipment of **Deering Twine!**
That Ever Came to Northeastern Kentucky
We received Monday, Tuesday and Wednesday, May 9th, 10th and 11th, 1898, by JOHN I. WINTER, THE PRICE FIGHTER. There was 30,000,000 (thirty million) feet in the shipment, and every foot of it is the justly famous Deering Pure Sisal Twine. None of us are too old to learn. If your neighbors are using a better article than you are, surely you wish to know it. The demand for Deering Pure Sisal Twine has become so great that we were compelled this year by 30,000,000 feet to accommodate the wants of our customers. Now, listen! Every inch of this Twine is tested at a much higher tension than any binder requires in tying, while in other makes of twine only 100 feet out of every 50,000 feet is tested. Deering Pure Sisal Twine is made of extra long (brist) strands of Pure Sisal Fiber, which permits of very fine spinning, thus producing more bundles to the pound than any other twine in the world. To make a long story short, I offer the following: Take out a lot of Deering Pure Sisal Twine, try it, and if you don't find that it will bind any acre of wheat with less pounds than any other twine made, if you don't find that it is the strongest twine made, if it is not the best twine that you ever used, you will please return it and every cent of your money will be made. Surely, that's fair. You are to be your own judge. Say, I can save you big money on twine. I bought my twine some time since when it was selling below the cost of production. Twine has advanced ever since. I am willing to give my friends and customers the advantage of my judicious purchase. I am selling twine today 1c a pound less than the market price. In buying Binder Twine, Farm Wagons, Farm Implements, Mowers, Hay Rakes Self Binders or Furniture it always pays to consult The Price Fighter.

THE DEERING is a safe line to hitch to. In buying a Self Binder one should study the matter carefully and select the best machine. Any make of binder will cut wheat, they all do that; but there is one machine that will cut wheat, rye, oats, barley, millet, bluegrass, timothy, etc. standing up or laying down flat, long or short, heavy or thin, on level, rolling or bilindus as steep as a roof. This machine is the Deering. Condition of grain or land makes no difference to this machine's binder. Get your money's worth and

Deering Machines have roller and ball bearings both, and in that respect is the only machine of the kind made. Its draft is the lightest of any now on the market. Deering, Deering made the first twine binder. Deering first used ball and roller bearings. Surely you won't buy a cheap imitation. Take a business view of the matter. Don't buy an experiment when you can take advantage of Deering's 32 years experience. They made the first Twine Binder, and have spent a lifetime in proving it and today offer you the result of their labor at the same price that other companies wish to charge you for experiments. Don't buy a cheap experiment, but buy a perfected Deering Binder, Mower or Hay Rake. They have made all your neighbors happy, as nearly 1,000 testimonials that we hold of residents of Mason, Bracken and Robertson distinctly state. We will be pleased to show you these testimonials. Come and see Deering's wonderful line of prize winning machines.

An Open Confession is Good for the Soul
We oversize the situation. We are loaded with Baby Buggies. They must go—we don't intend to carry them over. When an article doesn't move fast enough we push it, and push it so hard that it runs away from itself. We never have any carried-over stock. Now listen: These Buggies will be sold regardless of cost. Cost cuts no figure in this case. We want a little bit of your money in exchange for these Baby Buggies, and in order to make the exchange quickly we will

GIVE YOU THE 10 PER CENT. AND THROW IN 30 PER CENT. FOR GOOD COUNT!
This is the opportunity of your life. This sale is awe-inspiring and nervy, but nerve is one of our virtues.

NEWSY NOTES FROM NATURE'S GREAT HIGHWAY.

The Big Sandy river is about stationary with a good boating stage. The Virginia will pass down tonight from Pittsburgh with a big trip. The Gate City passed down Saturday with a miscellaneous tow from Point Pleasant for Cincinnati. The W. W. O'Neil and Boaz, which are on their way up, are expected to get as far as New Cumberland. The Raymond Horner, with a tow of empty coal craft from New Orleans on route to Pittsburgh, passed up. The George Matheson, which has been laid up at Cincinnati for a week or two, is receiving a general overhauling and will be painted before she comes out again. The Ark passed up for Point Pleasant Saturday with a tow of empty boats. She will bring a tow of coal from Pittsburgh if a rise comes at that point before it does in the Kanawha. Captain J. E. Nixon of Pittsburgh, an Ohio river Master and Pilot, has filed an application with the War Department for a line office in the Navy for anything from Ensign up. His application has been placed on file and he has been notified that when appointments are made it will be given due consideration. Captain Nixon is the first Pittsburgh licensed river man to make application for a post in the Navy.

The wickets at the Davis Island Dam were raised Saturday night. A half dozen poolboats are tied above Lock No. 3 with loads of coal unable to bring them below that lock. The recent heavy rains caused a large bar to form at the mouth of the creek at Lock No. 3 and boats cannot get around it. The Pittsburgh Coal Exchange will probably request Major Powell to have it dredged at once, as boats cannot be moved until the bar is removed.

An important event in the history of Free Masonry occurred at the session of the Grand Lodge at Seattle, Wash. It was in effect the recognition of Negro lodges and their authority to confer Masonic degrees. The recognition is limited to Negro lodges holding charters from the Grand Lodges of England, and is the first recognition of Negro Masonry by any grand jurisdiction in the United States.

The Lexington Herald Makes Some Suggestions Mayville Might Follow.

The need of a park in Lexington is but too plainly shown by the number of people who resort to the Cemetery as a place to spend these hot Sunday afternoons. Yesterday at the Pythian memorial services quite a crowd was collected by the drums and the procession of uniformed men, who had no interest at all in the ceremonies except idle curiosity, and were merely out to seek some quiet way of spending the afternoon. While the Cemetery is a very beautiful place, still by the very character of the surroundings, anything more than the quietest enjoyment is prohibited. It is to be hoped that the city fathers will see fit to give us a park at the reservoir, where picnic parties can enjoy themselves and mothers can take their town weary children to spend a day in the sweet country air during the sultry days of summer.
